

Finished result of an installation in Madison, CT. Playground for children aged 5-12 years. Loose fill surfacing applied at regulation height to reduce the severity of head injuries due to falls.

**Our goal is to deliver *quality* results that are compliant with the latest safety standards and guidelines.**

At Altitude, safety is always our number one priority. We are certified by the National Recreation and Park Association to reduce risks, repair and remove hazardous equipment, and establish a routine inspection system for all of our clients.

## Designing projects with safety and accessibility in mind.

---

### Did you know...?

- There are over 220,000 estimated playground equipment related injuries annually; 76% on public playgrounds.

### We ensure every site has:

- A safe play environment
- Age appropriate equipment and activities
- Compliance with standards and guidelines

Finished installation in Jamaica Plains, MA. Small playground for ages 5-12 years. Composite rubber surfacing which allows for maximum accessibility and protects up to a 10 ft fall height.

---

## Our Results

---

Once we've taken on a project, we work to make sure the results are *above and beyond* expectations. Between our resourceful site supervisors and our skillful workers, the outcome is always top quality!
